

Employment Opportunity

Curator

Full-Time Permanent Position

The Museum of Health Care at Kingston is currently seeking a Curator. The Museum Curator has overall responsibility for planning, organizing, and supervising the activities and personnel of the Curatorial Department of the Museum of Health Care (MHC).

Responsibilities include:

- Exhibition development, collections development & maintenance, and programming
- Undertaking research relevant to the museum's collection, other relevant health care-related topics, and responding to public information requests
- Building the museum's public profile within the regional community, as well as with national and international organizations, through museum activities
- Fulfilling the museum's mandate and acting as an ambassador & spokesperson to relevant community-based and educational organizations.

Pay scale:

Competitive & commensurate with experience.

The successful candidate will possess:

- A degree in a field that is applicable to the mandate of the Museum,
- Curatorial and collections' research experience, preferably in a museum environment or an equivalent in education and experience;
- Completion of a recognized museum studies program;
- Knowledge of Canadian history;
- A demonstrated ability to work effectively with exhibition teams and advisory committees;
- Experience working in a museum or related institution, with budget management and staff supervision duties.

Additionally, bilingual ability in written and spoken French will be considered 'an asset'.

Please submit via email a cover letter, resume, and three references with contact information (.PDF or Word .DOC format only) by **5:00 pm** on **March 27, 2020** to:
