With Hopefulness and Gratitude

We recognize and acknowledge that our work and the work of our membership takes place on a range of Indigenous territories across the regions now known as Eastern Ontario.

We recognize and acknowledge that this work, and the communities it strives to serve, is woven within our experiences of these lands, and those of the Anishinaabe, Haudenosaunee, and Huron-Wendat peoples, whose traditional and ongoing stewardship of these territories is fundamental to all our pasts, presents, and futures.

Take A Closer Look

Kingston and its surrounding areas comprise a region rich in cultural heritage, with a vibrant and diverse selection of art galleries, libraries, museums, archives, and historic sites to explore. The City of Kingston alone has over 30 museums and historic sites, as well as 3 art galleries, which has earned it the nickname of, “Canada’s Museum Capital”. Add to this the many cultural heritage experiences on offer within a day-trip of Kingston, it’s an opportunity that is impossible to resist.

Every year, these museums, galleries and historic sites offer visitors a place to escape, learn, and appreciate the many stories, communities, and places that define not only the local region, but also Ontario and Canada. We invite you to bring your students and explore some of these sites and organizations to learn from the site specialists and discover hidden histories, stories and places that make up our region’s rich cultural heritage. Featured in this Education Program Guide are several sites that offer organized educational programs for 2023/2024. There are many programs to choose from that can be catered for individual classes, large tour groups, or for educational tours. Site continue to add new programming, and this Education Program Guide will be updated on an annual basis.

The membership of Kingston & Area Association of Museums, Art Galleries + Historic Sites (KAM) includes virtually all local cultural heritage sites within the municipality of Kingston, and continues to grow within neighboring counties and townships, such as Loyalist, Lennox & Addington, Leeds & Grenville, and Frontenac. A full list of the KAM member sites can be found within this Education Booklet. If you are interested in visiting a site, but they are not listed as having programming in the upcoming year, please reach out to those sites directly for more information. They may be able to accommodate you.

If you have any questions or concerns about the programming featured, we encourage you to reach out to the organization directly.

Programming 2023 - 2024

Murney Tower Museum

The Murney Tower Museum is a community museum operated by the Kingston Historical Society in partnership with Parks Canada. It is located in one of the four Martello Towers of Kingston, Ontario and is part of the UNESCO World Heritage Site of the Rideau Canal and Kingston Fortifications. It is the oldest operating museum in Kingston with over a thousand domestic and military artifacts. The museum offers tours, programming and exhibits.

Murney Tower Tours

October 1st - December 1st 2023

April 1st - May 30th 2024

Our field trips include a guided tour of the Murney Tower and a discussion of the history of Kingston and last approximately 45-60 minutes.

Cost
Free

Frontenac County Schools Museum

The Frontenac County Schools Museum opened to the public in 1979. Now located in the former Pittsburgh Township Hall and Library in historic Barriefield Village, visitors to the Schools Museum have the opportunity to enjoy our costumed schoolteacher in our replica 1899 classroom lessons, research one-room schools in Frontenac County from their earliest establishment to the consolidation of school districts in 1970, view artefact displays and reminisce about old school days.

Back in Time to 1899

September - December 2023

February - June 2024

A visit to the Frontenac County Schools Museum includes an 1899 lesson with our costumed school marm, a tour of the Museum's gallery, and a themed craft.

The Brockville Museum

The Brockville Museum preserves and utilizes an evolving collection of objects and stories representing Brockville's past and present to provide inspiring, inclusive, and collaborative experiences that enhance well-being and strengthen the community's social and human capital in the service of Brockville's future.

A visit to the Brockville Museum offers a glimpse into the social and industrial history of Ontario's first incorporated town. Through a variety of thematic and interpretive displays the Brockville Museum shares the stories of the people who have shaped this riverfront community for over 200 years.

Museum Explorers (Social Studies)

Program dates vary depending on museum opening hours. Please inquire with the Community Program Coordinator to see what dates are available.

Museum Explorers introduces students to the concept of the museum and how museums preserve history. Students will get hands-on with museum artifacts and participate in a scavenger hunt, sharpening their observation skills and their understanding of continuity and change in Brockville's history.

The Brockville Museum offers a range of curriculum-based options to accommodate your school and youth group. For a full list, check out more of their **School Programs**.

Miller Museum of Geology

Queen's University Educational Tour Programs

The Miller Museum offers hands-on curriculum-linked educational programs that are presented in the museum classroom for school groups of up to 30 participants. In a typical year, 100 programs are presented to school groups, summer camps, youth groups, and any other group interested in the science of geology.

The museum also participates actively in the Beyond Classrooms program (beyondclassrooms.ca) where your entire class can relocate to a museum, art gallery, or other historic site for a full week of activities each day.

Mineral Identification

Please inquire with the museum to see what dates are available.

During this engaging instructor-led program, students share kits of real mineral samples to perform hardness tests, streak tests, and many other diagnostic investigations using the samples. Coupled with the opportunity to see beautiful mineral samples in the museum galleries afterwards, this program functions equally well as an introduction to the topic or a wrap-up review for classes at the end of their study unit on rocks and minerals.

Cost* \$70 per group	Program Length 1 hour	Program Type Hands-on Activity

Meteorites

Please inquire with the museum to see what dates are available.

Students can touch different types of meteorites and find out what they tell us about the Earth, followed by 15 minutes in the museum galleries. Activities also include searching for micrometeorites (done by the students using microscopes and other equipment), and demonstrations about scale modeling of impact craters.

Dinosaurs

Please inquire with the museum to see what dates are available.

An introduction to fossils and paleontology, with emphasis on dinosaurs. Program presentation length varies from 20 minutes for the youngest audiences to 35 minutes for older groups. Children get to see and touch a variety of bone and tooth casts, and real fossils including a real dinosaur bone fossil and a dinosaur footprint fossil. A volunteer from the group is dressed up as a paleontologist to show the tools and equipment used by paleontologists. The group spends an additional 20 minutes of self-guided time looking at the dinosaur exhibits, and digging in the fossil dig box (sand box with fossil casts to uncover), and they can also look at the crystals and mineral displays in the rest of the museum.

Beyond Classrooms Kingston

BCK fulfills a unique and significant role in Kingston's cultural heritage by providing youth access to week-long heritage learning experiences in Kingston's cultural heritage sites. Unlike a regular class field trip, BCK extends students' time to explore, engage with content experts, and take time to reflect on the collections. This enables students to develop skills and attitudes in novel ways. BCK programming encourages active citizenship and enhances critical thinking skills, empowering students to interpret and tell Kingston's stories.

Hands-on Learning with BCK

September 2023 - June 2024

Teachers can build a week of student-driven, inquiry-based learning that connects with the provincial curriculum and will be supported by heritage professionals and educators from some of Kingston's cultural heritage sites. During the week, these sites become a space for students to absorb knowledge, discover stories, and engage with experts to understand a broad spectrum of historical narratives and experiences.

Cost

Tett Centre for Creativity and Learning

The Tett Centre for Creativity + Learning (TCCL) is a charitable arts organization, operating in the beautiful J.K. Tett heritage building on Lake Ontario's waterfront in Kingston, Ontario. This historic building is owned by the City of Kingston and was fully renovated in 2015. It originally formed part of the Morton Brewery and Distillery Company, which was built in the mid-19th century.

The J.K. Tett Centre is home to nine arts organizations (including the TCCL), eight Creativity Studio Artists, and a variety of rental spaces, including the Malting Tower, Rehearsal Hall, Tett Gallery and Activity Room.

Kids Creativity Club

Every first Saturday of the Month (October- April)

Designed for families with children aged 10 and under, Kids Creativity Club is a drop-in artmaking program that is the perfect opportunity for young artists to dive into a world of hands-on creative arts activities. Maximum space capacities may vary depending on the activity in the rental space.

Military Communications & Electronics Museum

The Military Communications and Electronics Museum (MCEM) and the Royal Canadian Electrical and Mechanical Engineers Museum (RCEME) provide a variety of educational opportunities for school groups, youth groups and the wider community. The education program is designed to be flexible and adaptable to different learning requirements. From early learners to life-long learners, we can tailor your visit to suit your needs. The gallery contains many artifacts and displays with themes relating to history, geography, science and technology. We provide immersive and experiential programming that compliments a wide range of learning as supported by our theme: the troops, the times, and the technology.

Developed in conjunction with Ontario Ministry of Education curriculum guidelines, our school programs explore the fascinating history of the C&E Branch and RCEME Corps, offering sensory-rich, cross-curricular and authentic learning experiences that are designed to complement classroom teaching. Contact us if you would like to discuss how we can curate the perfect learning experience for your group!

Improbable Escapes: Camp X

Year-round

Welcome to Camp X, a secret school created to train elite covert agents during World War II. Use the tools in your trench coat to decode messages, sleuth through the museum, and uncover mysteries of the past to discover a secret code word. Complete your mission by reporting back to the front desk with the code word, and you will earn your place amongst history's greatest shadow operatives. Fail, and the fate of the free world could be at stake. Are you up for the challenge? Critical thinking challenges can be done in groups as a team-building adventure.

Improbable Escapes: Spymaster

Year-round

You've just been informed there's a double agent who's got your name. You've been dropped behind enemy lines, and time is ticking before your cover is blown. You need to identify the other double agents and find the secret code before all is lost. Use the clues and items in your briefcase to decode messages, sleuth through the museum, and discover the names and the code words. Complete your mission by reporting back to the front desk once you've solved all ten names, and you'll earn your place amongst history's greatest shadow operatives. Fail your mission, and the fate of the free world could be at stake. Critical thinking challenges and can be done in groups as a team-building adventure.

The Message Must Get Through (Social Studies and History) ***Year-round***

The objectives of this educational program are to teach students about Major Wallace Bruce Matthews Carruthers the “father of military communications in Canada” and thereby give them an understanding of the beginnings of military signalling in Canada. Students will be guided by research questions and encouraged to think critically while examining primary documents. From these documents, students will glean information about Carruthers and the state of signalling in the Canadian military at the turn of the century.

Pumphouse

PUMPHOUSE
HISTORY *in* MOTION

Step into Kingston's first waterworks in operation from 1851 to 1952. Today, this magnificent building continues to serve the public as a community museum.

Water, Water Everywhere (Science and Social Studies)

September 1, 2023 - November 1, 2023

February 5, 2024 - November 15, 2024 (dependent on staffing and space)

Through this program, young learners will explore the PumpHouse and learn about the past and present issues surrounding water use and access. Participants will work together to create and test water filters. Program content aligns with the curriculum and is also open to non-school group bookings within the specified age ranges.

Cost

\$4.67 per

Tinker Tykes (Science and Social Studies)

September 1, 2023 - November 1, 2023

February 5, 2024 - November 15, 2024 (dependent on staffing and space)

Learners will explore simple machines through a tour of the historic PumpHouse machinery. This will be followed by hands-on building challenges in which they will use K'Nex to create their own machines. Content aligns with curriculum expectations in Science and Social Studies. This program is also open to non-school group bookings within those age ranges.

Museum Makers (Language and Social Studies)

Tuesday-Friday, February 5 -June 2024

Participants will learn about how museums use artifacts and spaces to tell stories. Learners will use their knowledge to design and present their own mini-exhibitions. This program is offered in tandem with the *Stuff Stories Are Made Of* temporary exhibition, which will provide opportunities for learners to explore the breadth and diversity of Kingston's history through artifacts from the Civic Collection. This program is also open to non-school group bookings within those age ranges.

Kingston City Hall

Kingston City Hall, one of the finest 19th-century buildings in Canada and a nationally designated heritage site, is toured by thousands of tourists and local citizens each year. Kingston's historic City Hall has housed governments, a bank, dry goods, and the body of Sir John A. Macdonald.

Beards & Biases (Language and Social Studies)

February 5, 2024 - November 15, 2024 (dependent on staffing and space)

This subversive program will provide opportunities for participants to unpack how views of the past have changed through time. Learners will explore this concept through artwork present in the City Hall space and surrounding local architecture. Through this process, participants will develop a greater awareness of past and present biases within our society and how they contribute to marginalisation. Content aligns with curriculum expectations in Language and Social Studies. Program content aligns with the curriculum and is also open to non-school group bookings within the specified age ranges.

MacLachlan

MacLachlan
WOODWORKING MUSEUM

Woodworking Museum

The MacLachlan Woodworking Museum holds one of the most extensive collections of woodworking tools in Canada. Since the mid-1800s, the log house at the MacLachlan Woodworking Museum has witnessed many events and changes over the years. With each person to own it, the house has served different purposes and been transformed with physical additions and layouts.

Habitat Heroes (Science and Social Studies)

February 5, 2024 - November 15, 2024 (dependent on staffing and space)

In Habitat Heroes, participants will learn about local species and habitats while developing awareness of how their actions can help or harm local ecosystems. Content will include guided tours of the MacLachlan property, a stewardship-focused game and the opportunity to create bug hotels to take home. Content aligns with curriculum expectations in Science and Social Studies. Program content aligns with the curriculum and is also open to non-school group bookings within the specified age ranges.

Glanmore National Historic Site

This grand Victorian mansion serves as both a historic house and community museum. The historic house has had extensive restoration. The museum exhibits artifacts original to the historic house as well as fine art and decorative objects from the Couldery Collection and artifacts that are significant to local history from the Regional collection. The museum is open-year round.

Consider Glanmore your community classroom, where history comes to life in inspiring and enriching ways. The museum is an exciting place to learn and discover and an important educational resource in Belleville. Our education programs are designed to support the learning objectives of the Ontario curriculum through inquiry-based learning practices. A variety of programs are offered for school visits throughout the year. Custom programs can also be developed.

Victorian Christmas at Glanmore (Social Studies)

Mid-November 2023 - December 2023

Glanmore is decked for the season! Step into a snapshot of Christmas Past to learn about how celebrations have changed over time. Share family traditions and learn about special ways we celebrate the holidays in this exploration of an 1890s Christmas in Belleville.

Smiths Falls Heritage House Museum

Located on the picturesque Rideau Canal waterway at Old Sly's Lock Station, the Smiths Falls Heritage House Museum functions as a community museum and historic house. It depicts the upper-middle-class life of the Bates Family circa 1865-1875 and features changing displays of Smiths Falls artifacts and history, travelling exhibits and art shows. A visit offers unique mirror-image facades, an indoor brick bake oven, period rooms, exhibition galleries and a famous two-story privy.

Museum Tour

Smiths Falls Heritage House Museum

Life of a Victorian Child

Year-round, but please inquire beforehand

This programming allows you to combine three activities to create a unique 90-minute experience for your class.

Museum Tour

Students will be taken through the museum, Smiths Falls galleries, and history exhibits to explore and discover the life of a pioneer child. They will discover pioneer toys and can participate in a scavenger hunt.

Victorian Games

Students will be able to play and experience a variety of traditional Victorian lawn games as well as Parlour Games outside on the museum grounds.

Victorian Toys

This program introduces pioneer toys to students. Each student will be given the opportunity to make their own toy and play with a sample of toys that are different from the ones they use today.

Butter and Biscuit Making

Students will learn about the butter-making process, take cream and turn it into fresh butter as well as mix up and bake their own tea biscuits in the museum's bake oven.

Ice Cream Making

Learn how to make ice cream the Victorian way and enjoy a sweet treat.

Candle Making

Students will learn about candles and Victorian illumination as they create their own hand-dipped candles.

Cost
\$5 per
student

A Soldier's Overnight

Main Season: May 18, 2024 - September 1, 2024

(dates outside of this are subject to availability)

No classroom experience will equal the excitement and fun of the Soldiers' Overnight Program. It is by far the premier learning experience we have to offer. Immerse your students into the lifestyle of Fort Henry's garrison, exposing them to the actual routines of the 1860s. In essence, your students will become soldiers for 21 hours at the Citadel of Upper Canada.

Your class will be provided with an Interpreter to teach and guide your class in their experience as soldiers in the British Army in 1867. The following is a list of activities that your students will participate in. These will be in-depth to allow your students to immerse themselves in the living history and fully appreciate the experiential learning.

- Guided tour
- Issued uniforms Muster parade
- Schoolroom lesson
- Barrack Room Inspection Ghost Tour
- Flag Raising and Lowering
- Historic Hunt / Historical Detectives
- Each group member will receive a certificate promoting them to the rank of Private in the British Army of 1867 at the end of the program.
- Programming with Interpreter offered

Bellevue House National Historic Site, Parks Canada

Parks Canada is pleased to invite Canadians to discover the inclusive visitor experience offered at Bellevue House National Historic Site. Parks Canada has updated the exhibits and programming to present the complex legacies of Sir John A. Macdonald, his role in Confederation and the inclusion of lesser-known histories, including those of Indigenous and racialized communities. Bellevue House National Historic Site is a place where visitors can explore and discover Sir John A. Macdonald's role in forming the Dominion of Canada, his actions as Prime Minister, and understand the painful legacies caused by his policies and decisions at their own pace.

Bellevue offers a range of programs for individuals, families, schools, and tour groups. Please go to the website for a breakdown of the visitor experience, email or call us for more details to customize your visit!
